Rajarata University of Sri Lanka (RUSL) — Reading (2023 – Present)

- Key Coursework: Systems Analysis & Design, IT Project Management, Business Information Systems, Database Management, Software Engineering, Data Analytics, Agile Methodologies, Human-Computer Interaction
- Developing core competencies across technical and managerial dimensions of Information Technology
- Active member of IEEE RUSL, Zero Plastic RUSL, and Hiking Club student societies

G.C.E. Advanced Level — Technology Stream

2020

Azhar College, Akurana

- Completed Advanced Level examinations with a focus on the Technology stream, building the foundational knowledge for higher education in Information Technology

G.C.E. Ordinary Level

2017

Azhar College, Akurana

- Successfully completed Ordinary Level examinations with strong academic performance across core subjects

SKILLS & COMPETENCIES

Business & Analytical Skills

- Business Analysis & Requirements Gathering
- Stakeholder Management & Communication
- Agile Methodology & Scrum Framework
- Project Planning & Lifecycle Management
- Data Analytics & KPI Reporting
- Process Modeling & Documentation

Technical Skills

- HTML, CSS, JavaScript, React.js
- Node.js, Python (Pandas, Matplotlib)
- SQL & Database Management
- Git & GitHub (Version Control)
- UI/UX Design Principles
- AI/ML & NLP Fundamentals

Soft Skills

- Critical Thinking & Problem Solving
- Leadership & Team Collaboration
- Written & Verbal Communication
- Time Management & Prioritization
- Adaptability & Resilience
- Detail-Oriented Approach

PROJECTS

Project Management Dashboard | *React, Node.js, SQL*

- Developed a comprehensive dashboard for tracking project milestones, resource allocation, and team performance metrics with real-time progress visualization
- Reduced reporting time by 40% through automated reporting features and integrated agile sprint tracking
- Implemented multi-team collaboration capabilities supporting simultaneous team access and updates

Business Analytics Dashboard | *Python, Data Analytics, SQL*

- Built an interactive analytics platform providing business intelligence through data visualization, KPI tracking, and trend analysis
- Designed an automated data pipeline and executive reporting module to enable data-driven decision-making for stakeholders

Task Management System | *JavaScript, React, CSS*

- Developed a full-featured task management application with drag-and-drop Kanban boards, priority queuing, and deadline management
- Integrated real-time collaboration features and automated deadline notification system for distributed teams

AI-Powered Business Assistant | *AI/ML, Python, NLP*

- Built an intelligent assistant leveraging Natural Language Processing (NLP) to automate routine business analysis tasks
- Implemented automated SWOT analysis generation and strategic insight engine from unstructured data inputs

Data Analysis Pipeline | *Python, Pandas, Matplotlib*

- Engineered an end-to-end data analysis pipeline for business datasets including automated data cleaning, exploratory analysis, and statistical modeling
- Produced visual reporting output and automated insight generation for business reporting workflows

Portfolio Website | *HTML, CSS, JavaScript*

- Designed and developed a fully responsive, single-page professional portfolio with animated interactions and SEO-friendly architecture
